

Instalasi Anaconda

**By Sarina
JumaTec Class**

STEP 1

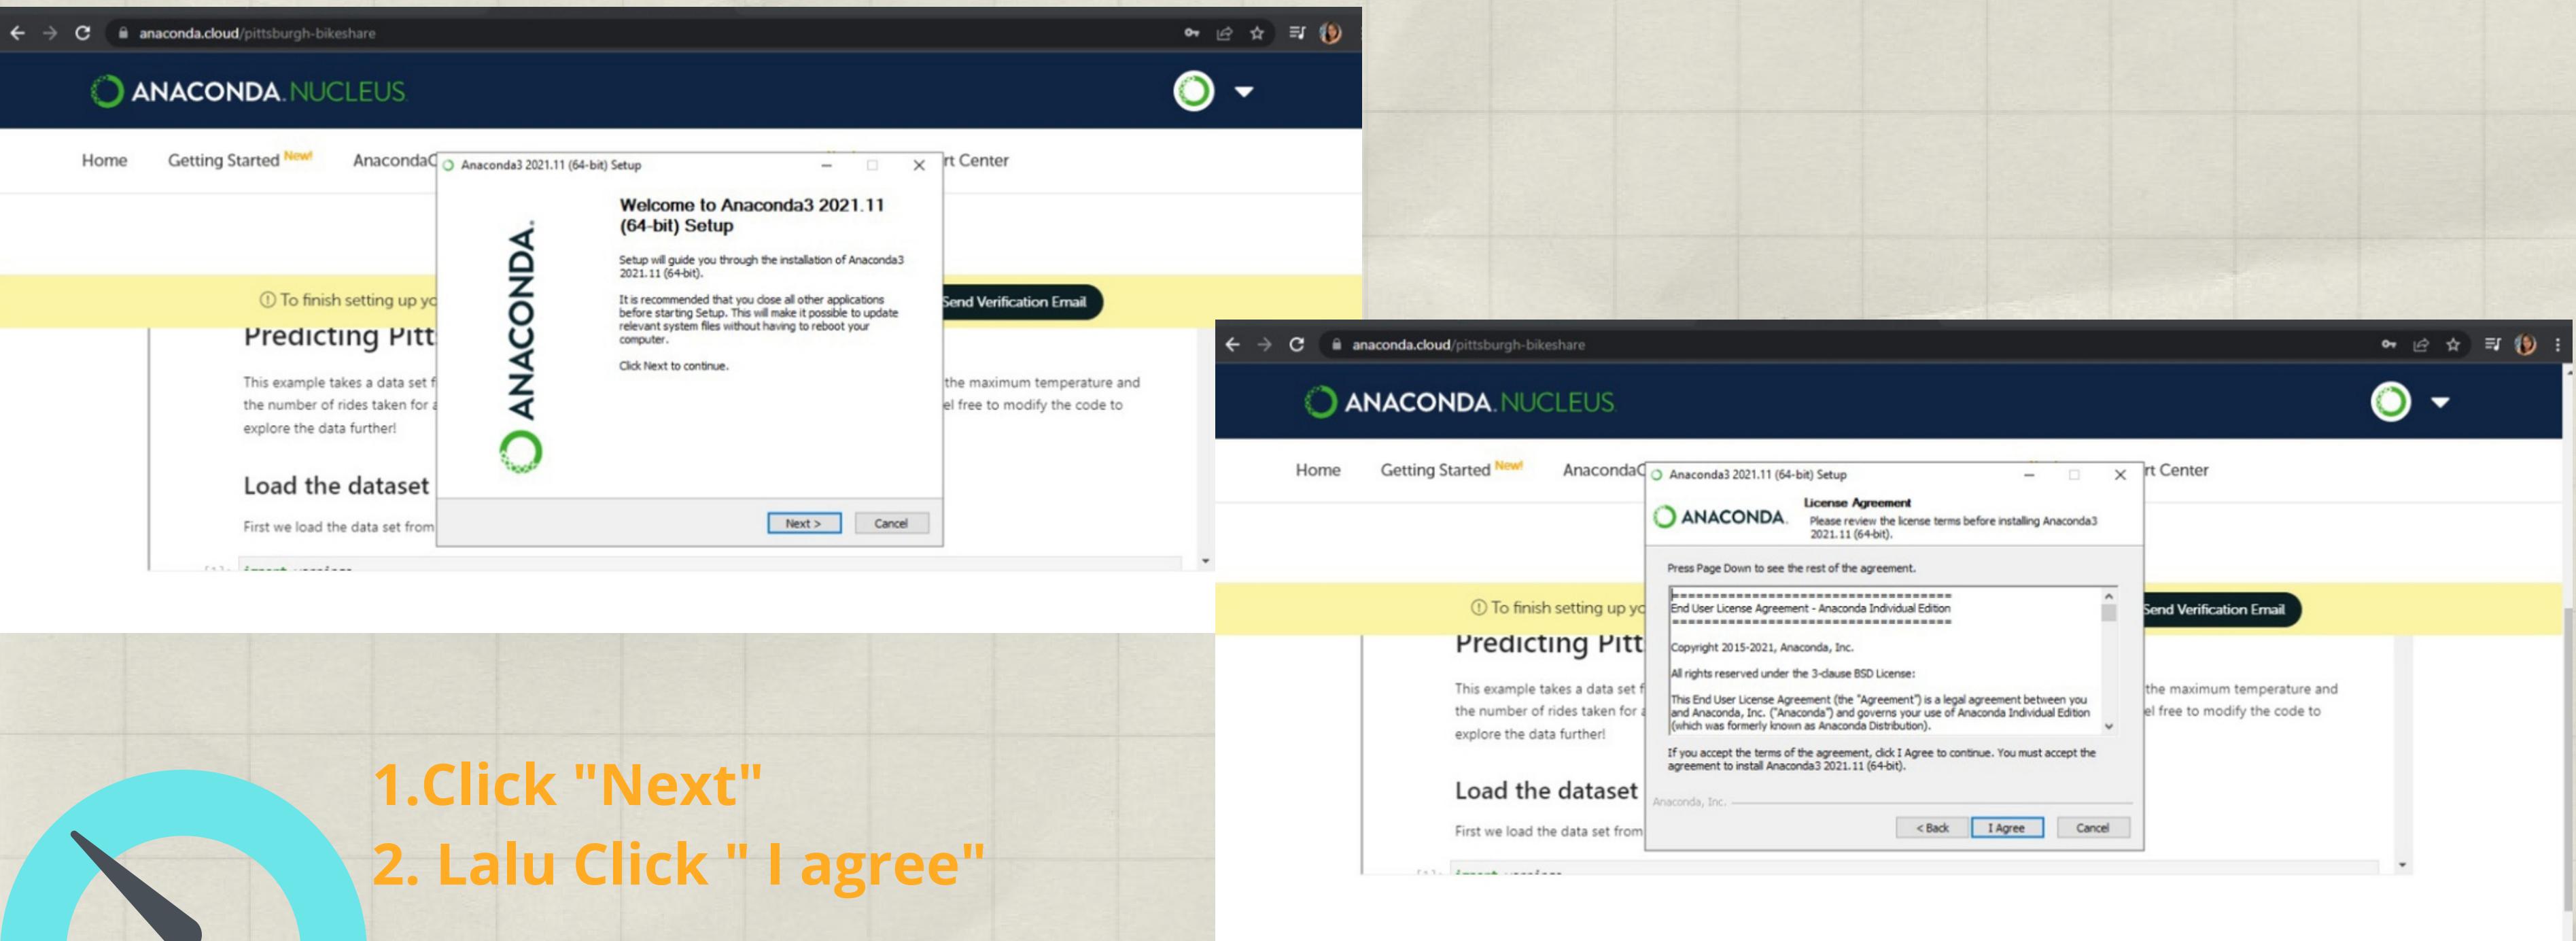

Silahkan Akses "Anaconda.com"
lalu klik download

The screenshot shows the Anaconda.com website. At the top, there is a navigation bar with links for Products, Pricing, Solutions, Resources, Partners, Blog, and Company. There is also a 'Contact Sales' button. The main headline reads 'Data science technology for a better world.' Below the headline, a description states: 'Anaconda offers the easiest way to perform Python/R data science and machine learning on a single machine. Start working with thousands of open-source packages and libraries today.' At the bottom, there is a green 'Download' button with a Windows icon next to it. A small orange asterisk icon is located on the far left edge of the slide.

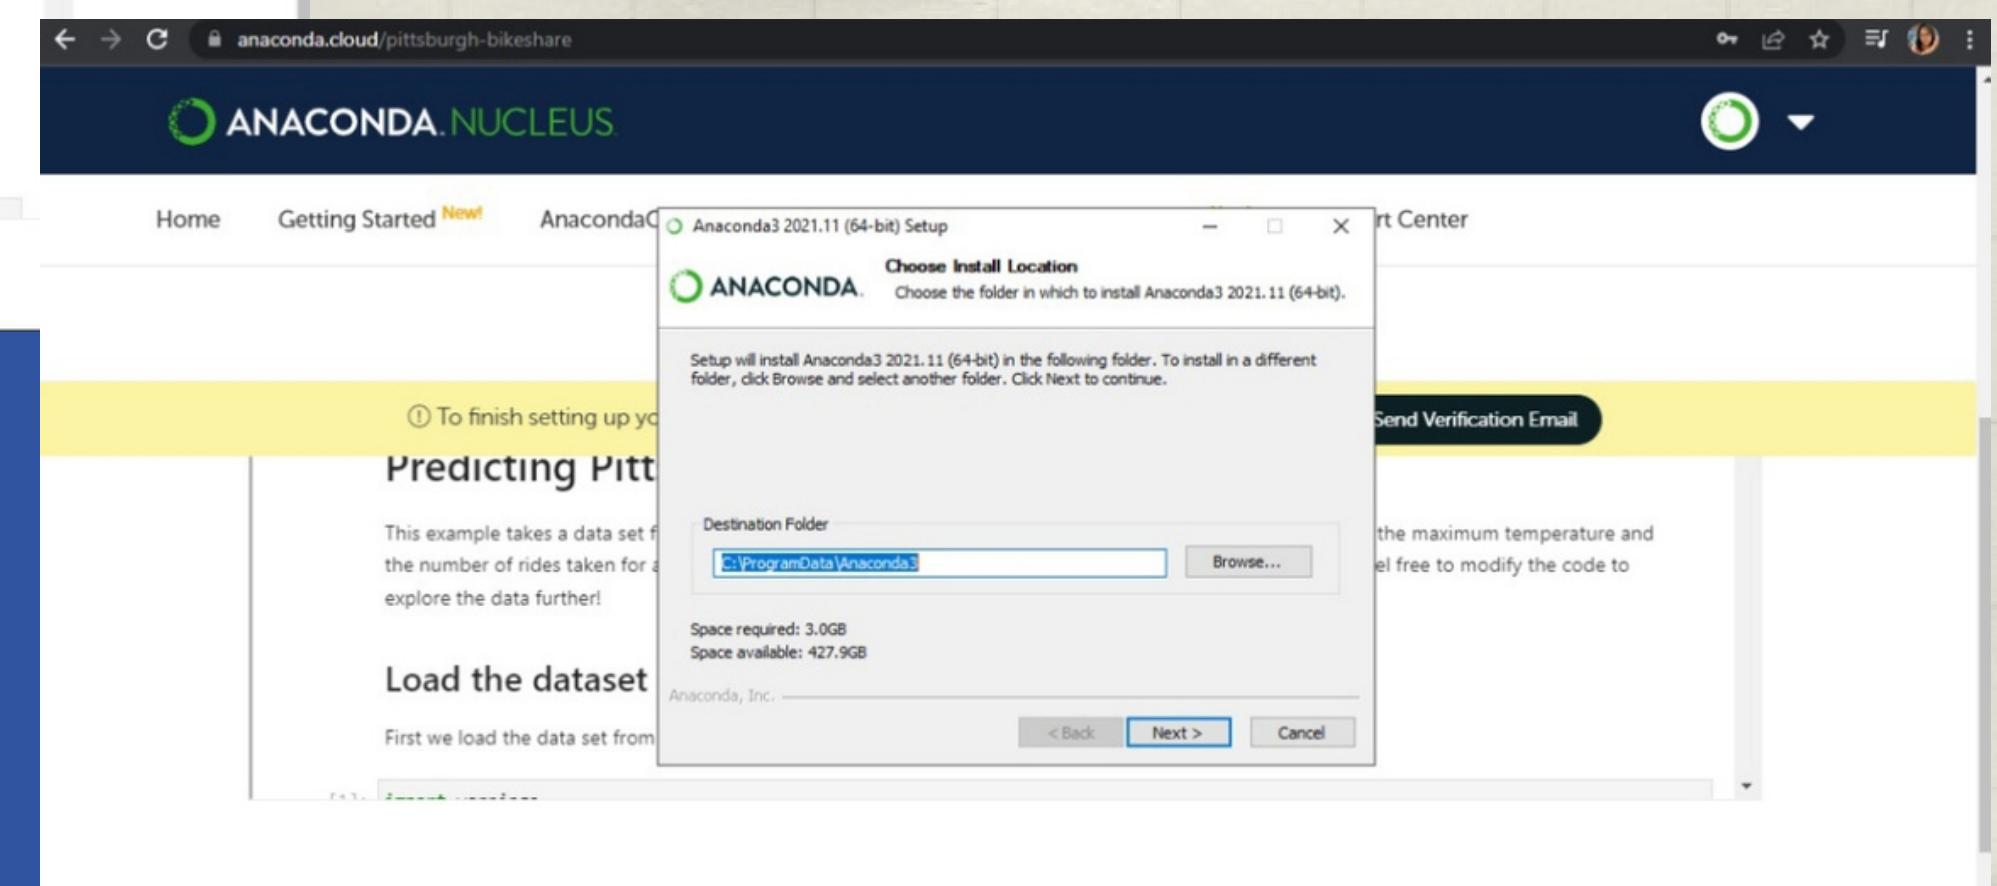

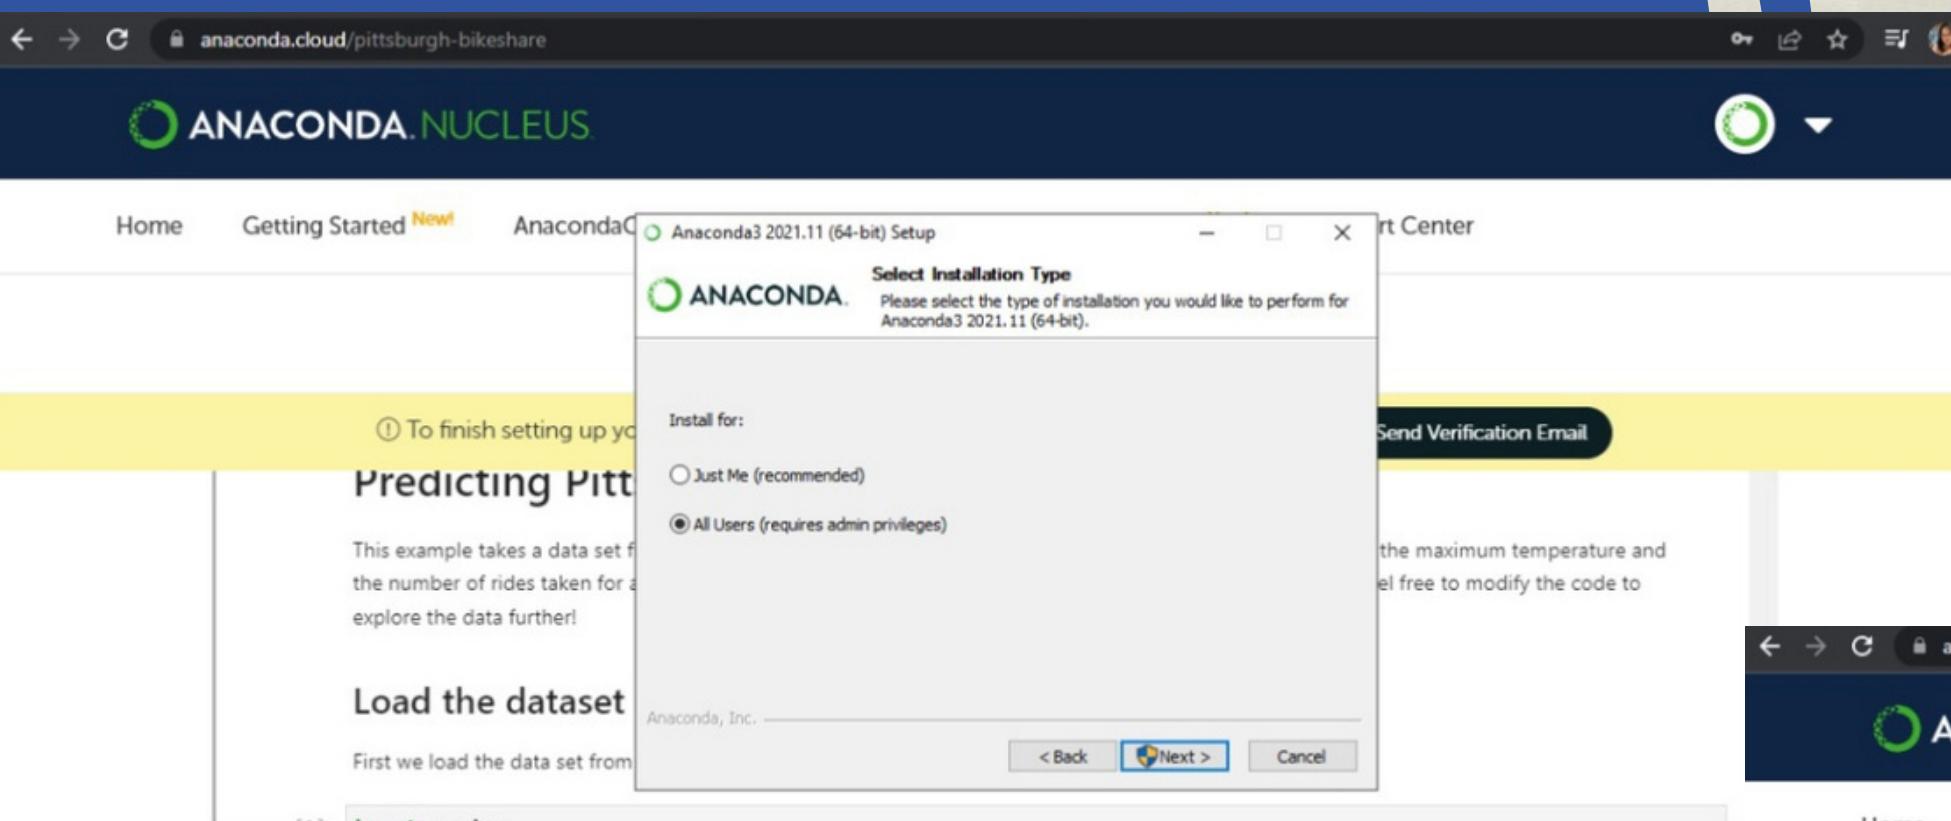

STEP 2

setelah selesai didownload, langkah selanjutnya menginstal file anaconda dengan cara double click sampai muncul gambar dibawah seperti ini.

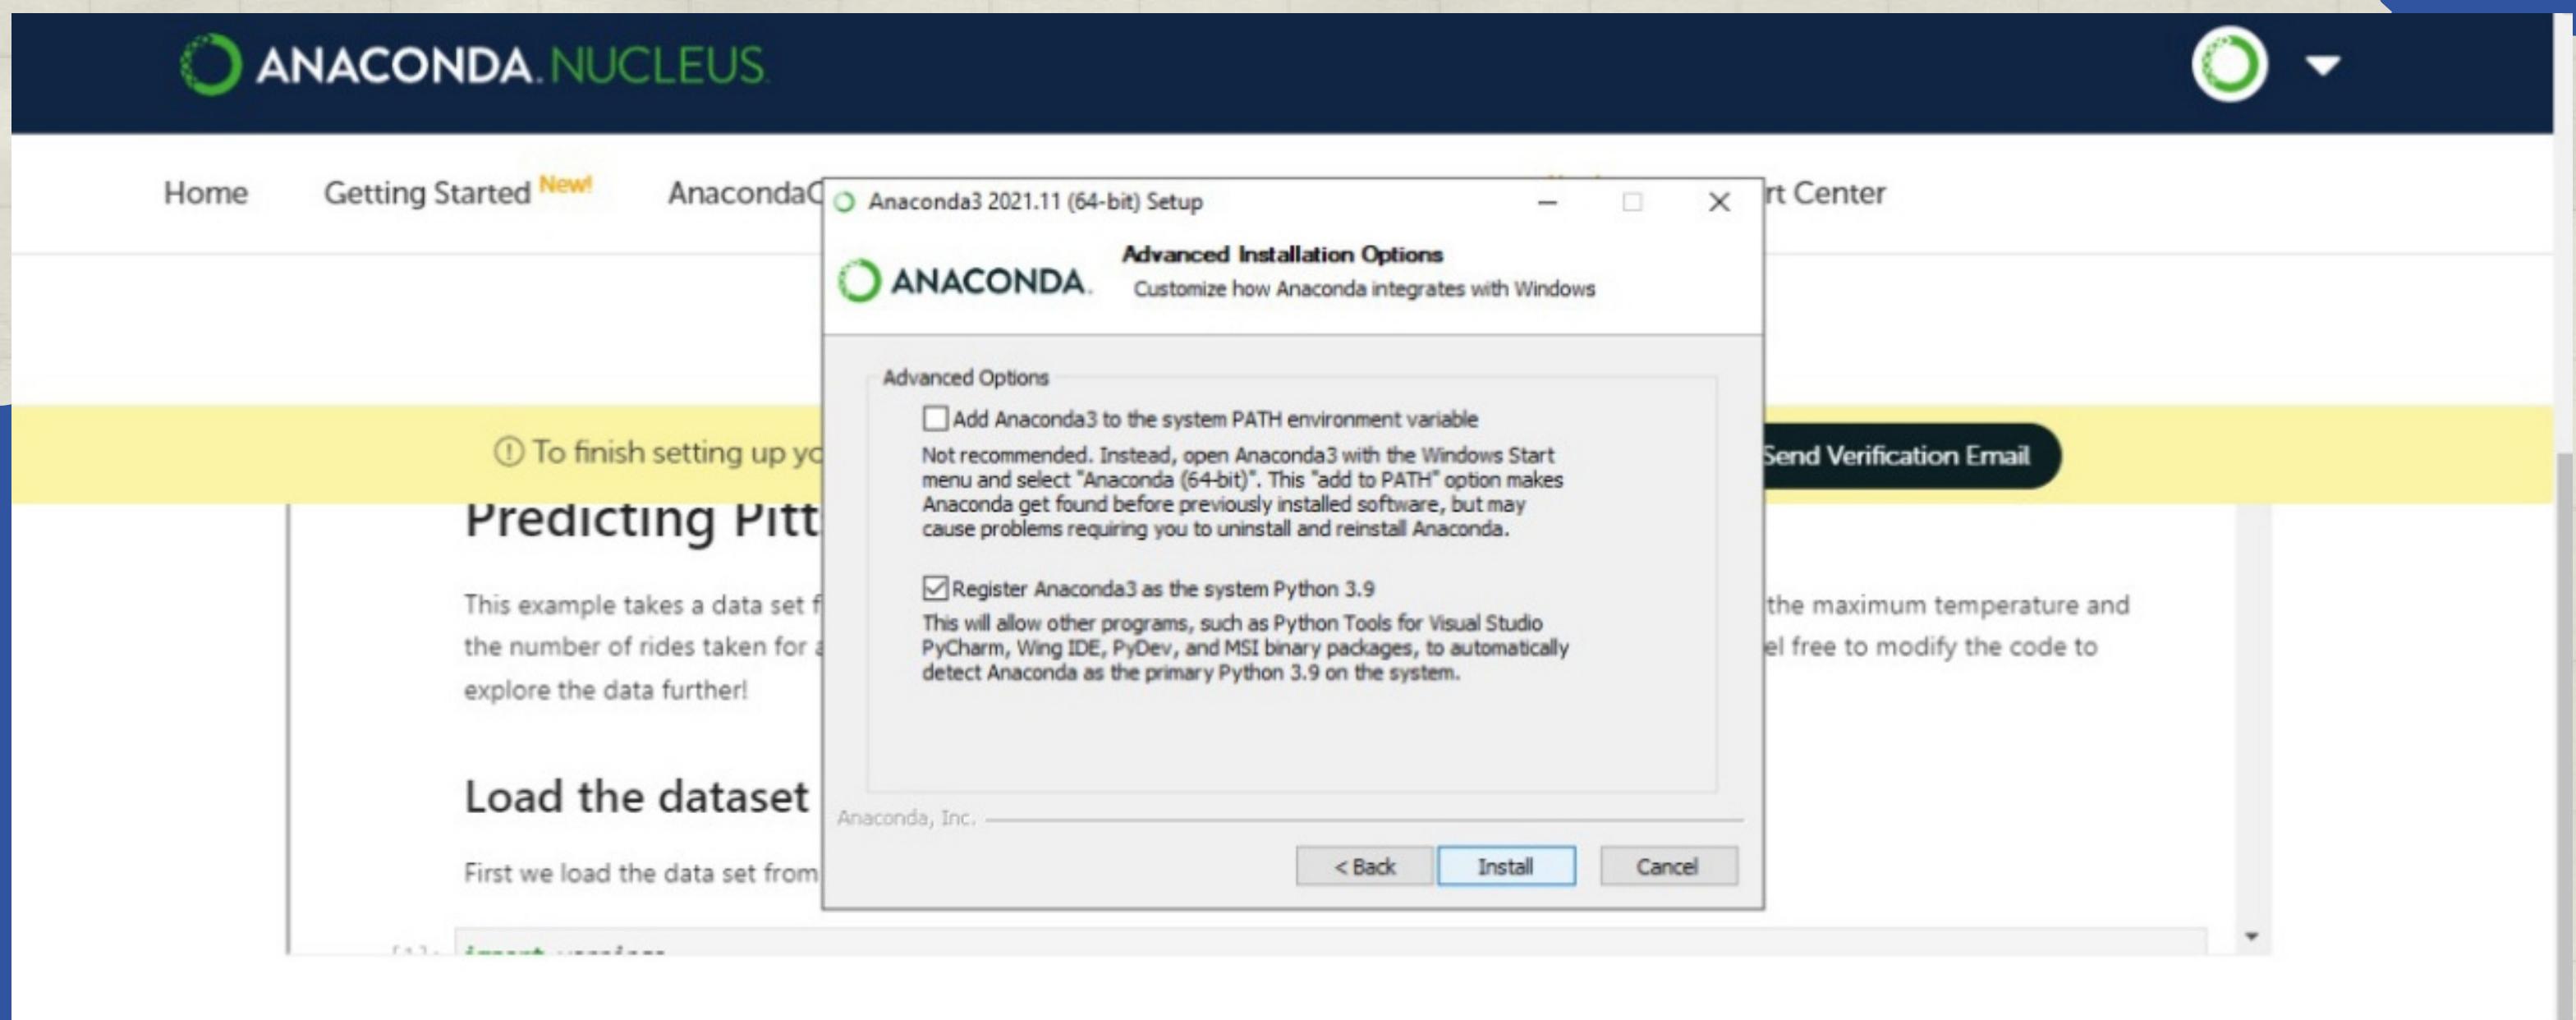

STEP 3

Kemudian menentukan folder , lalu click "next"

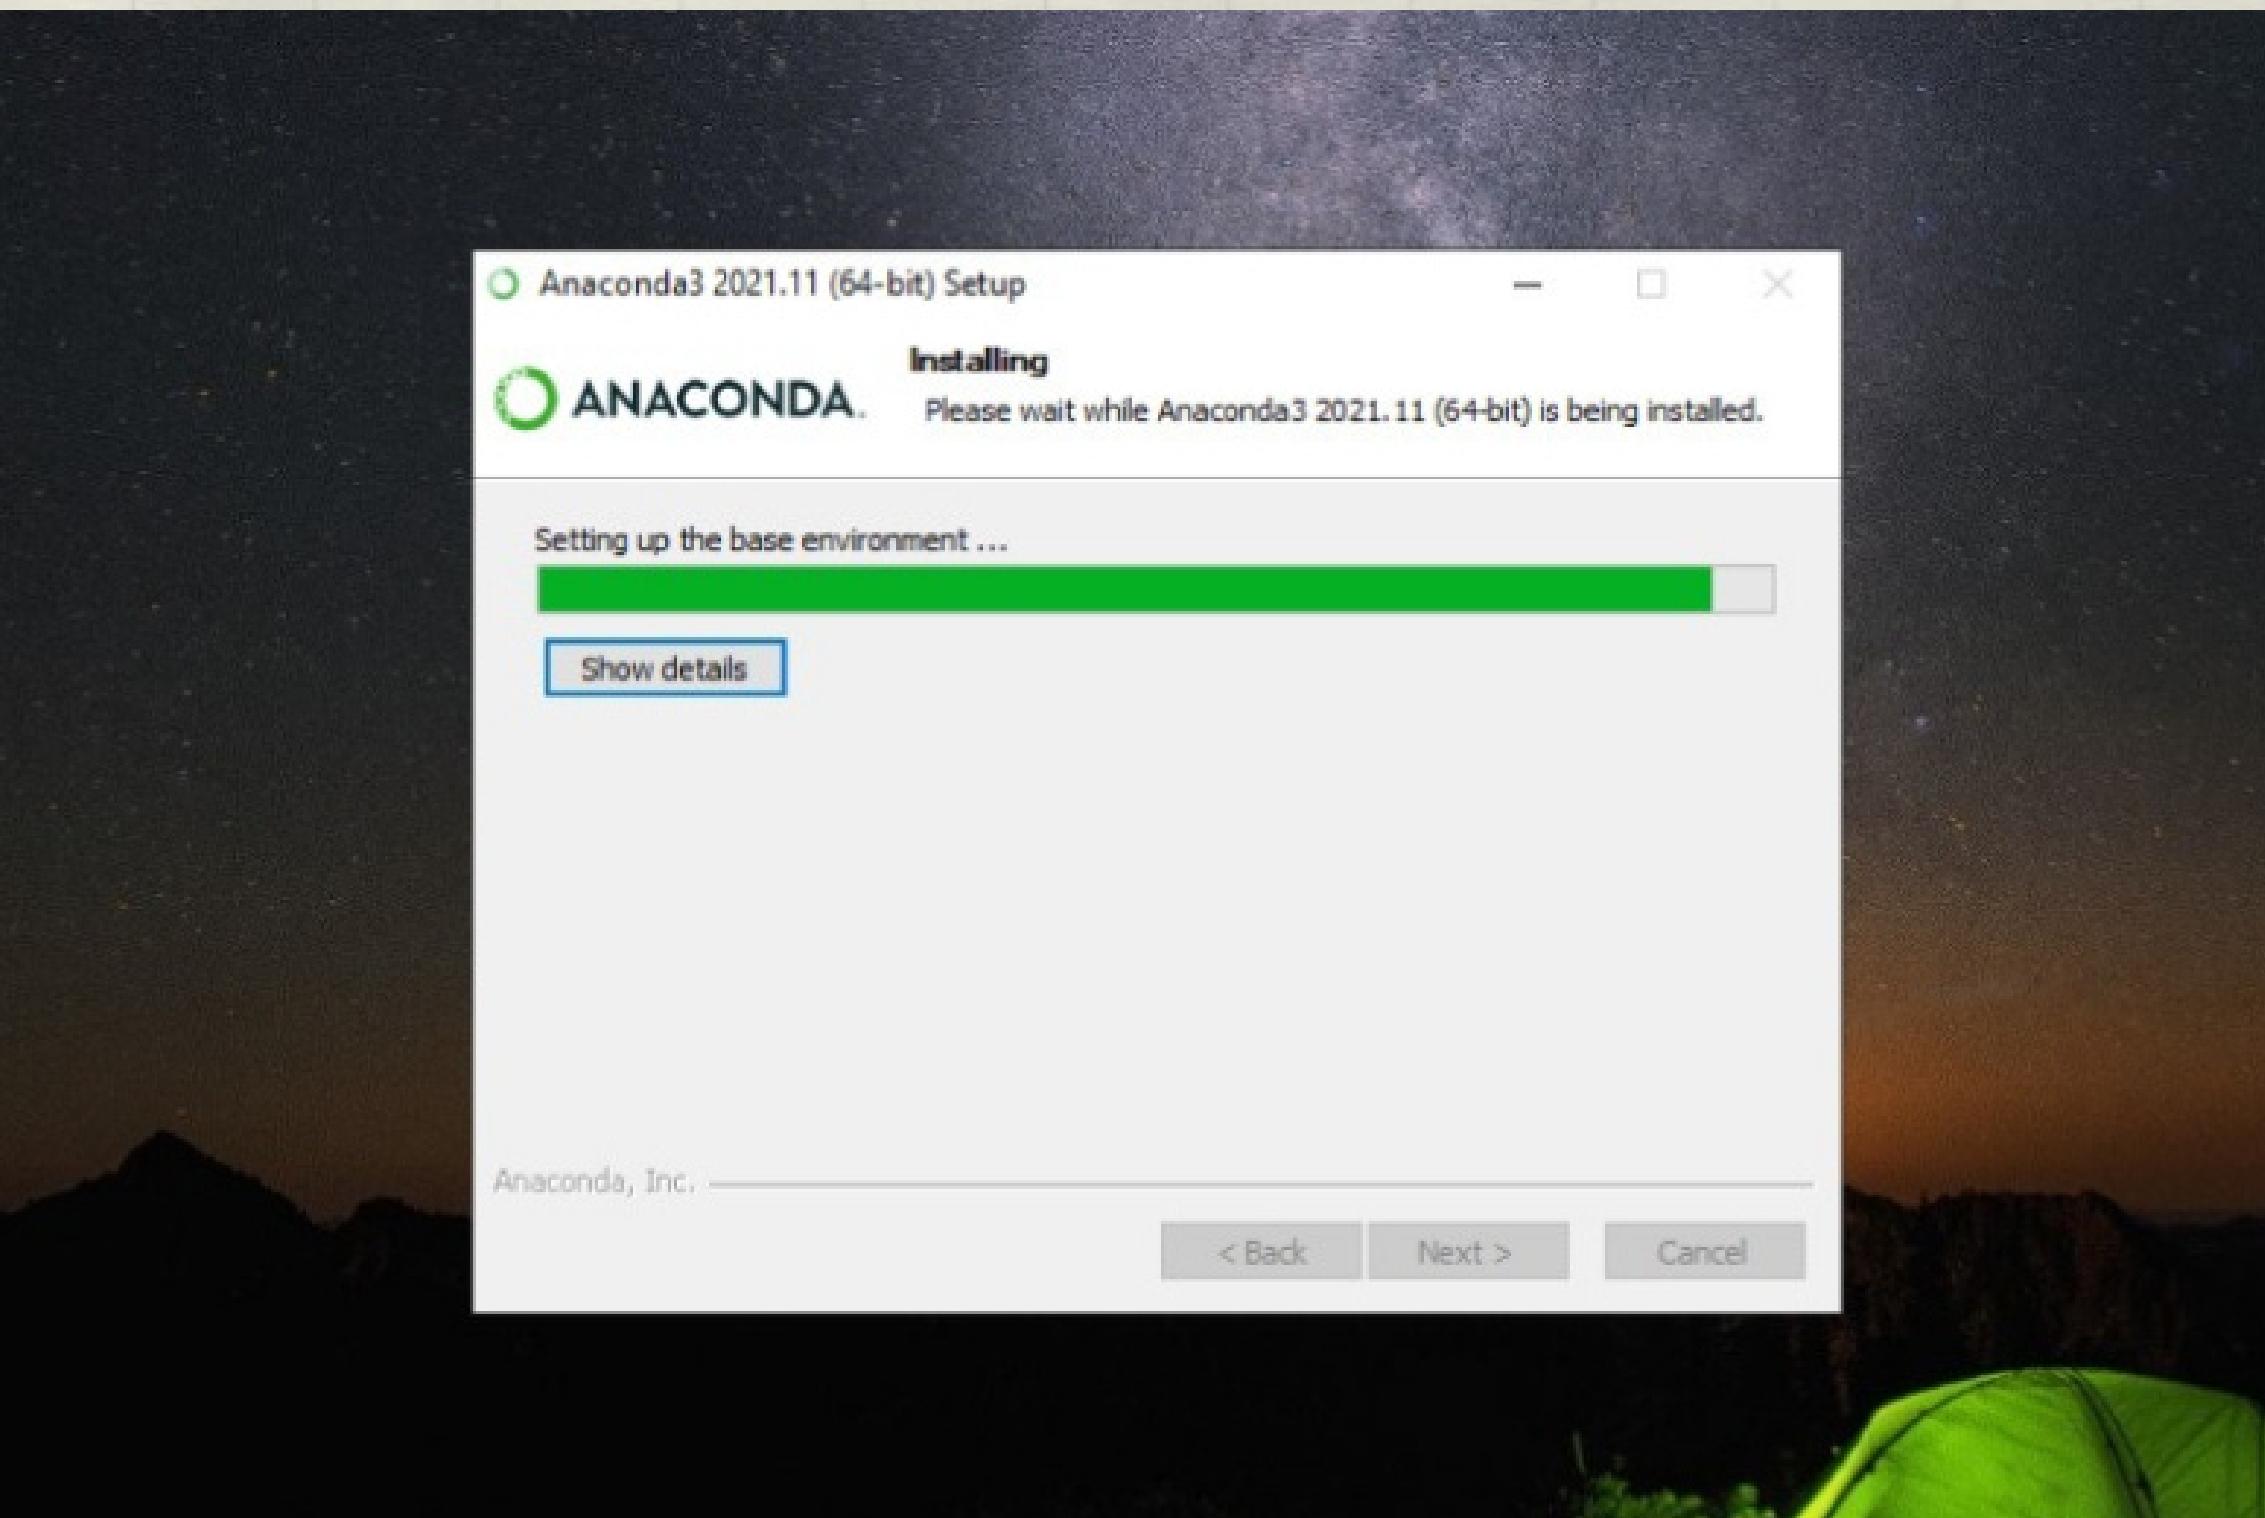

STEP 4

Kemudian ceklis "Register Anaconda3 as the system Python 3.9"
lalu click "install"

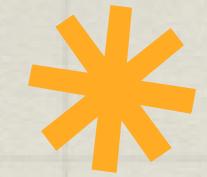

STEP 5

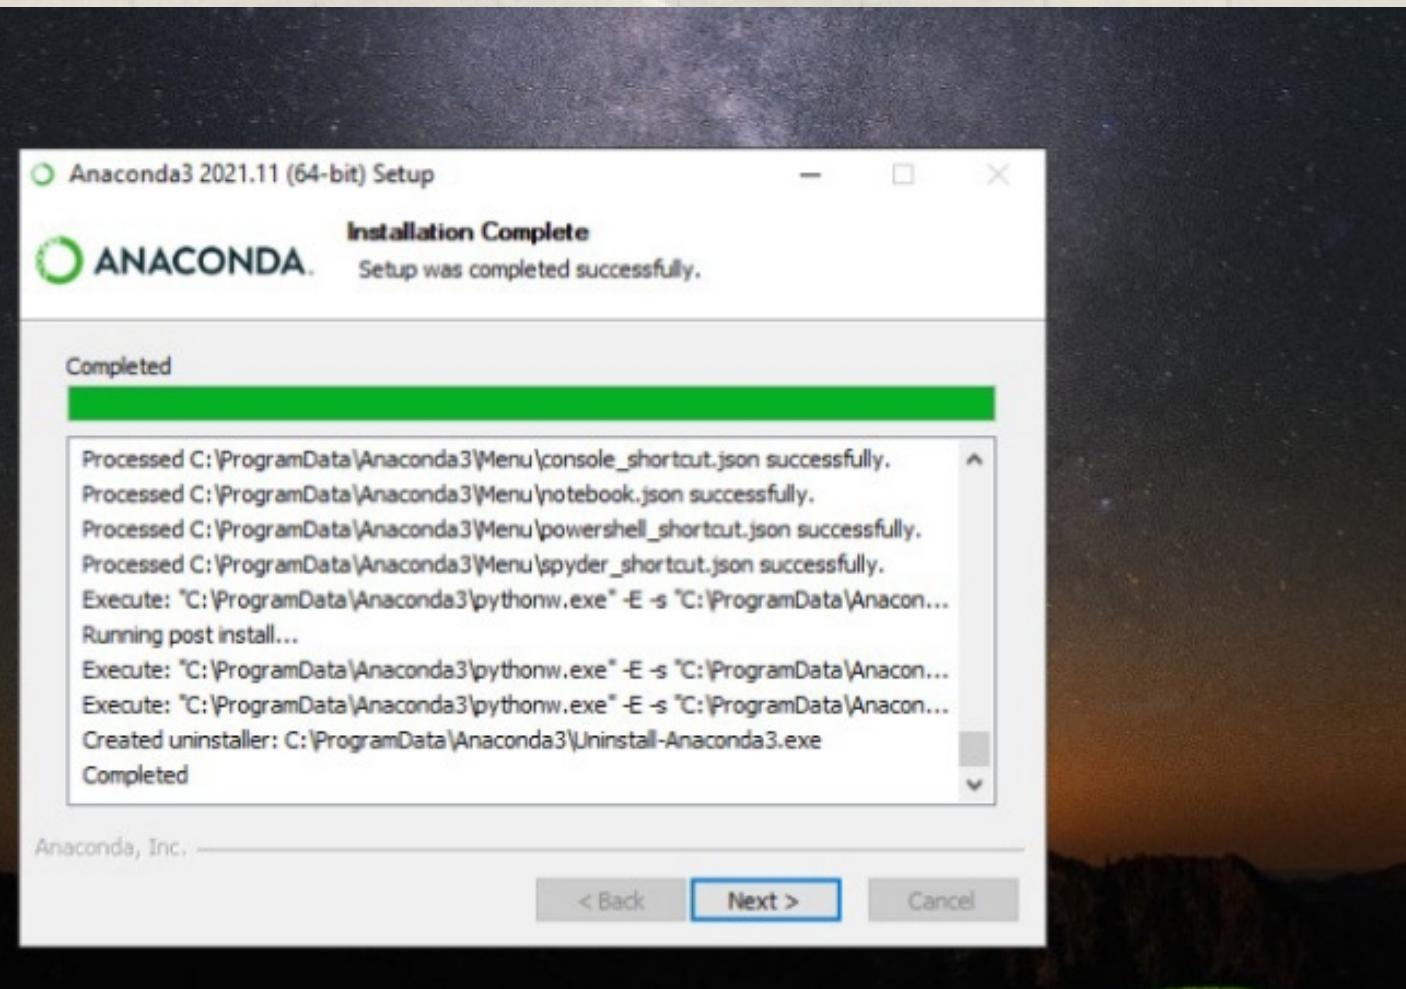

Untuk bagian proses ini sedikit menunggu beberapa menit,

STEP 6

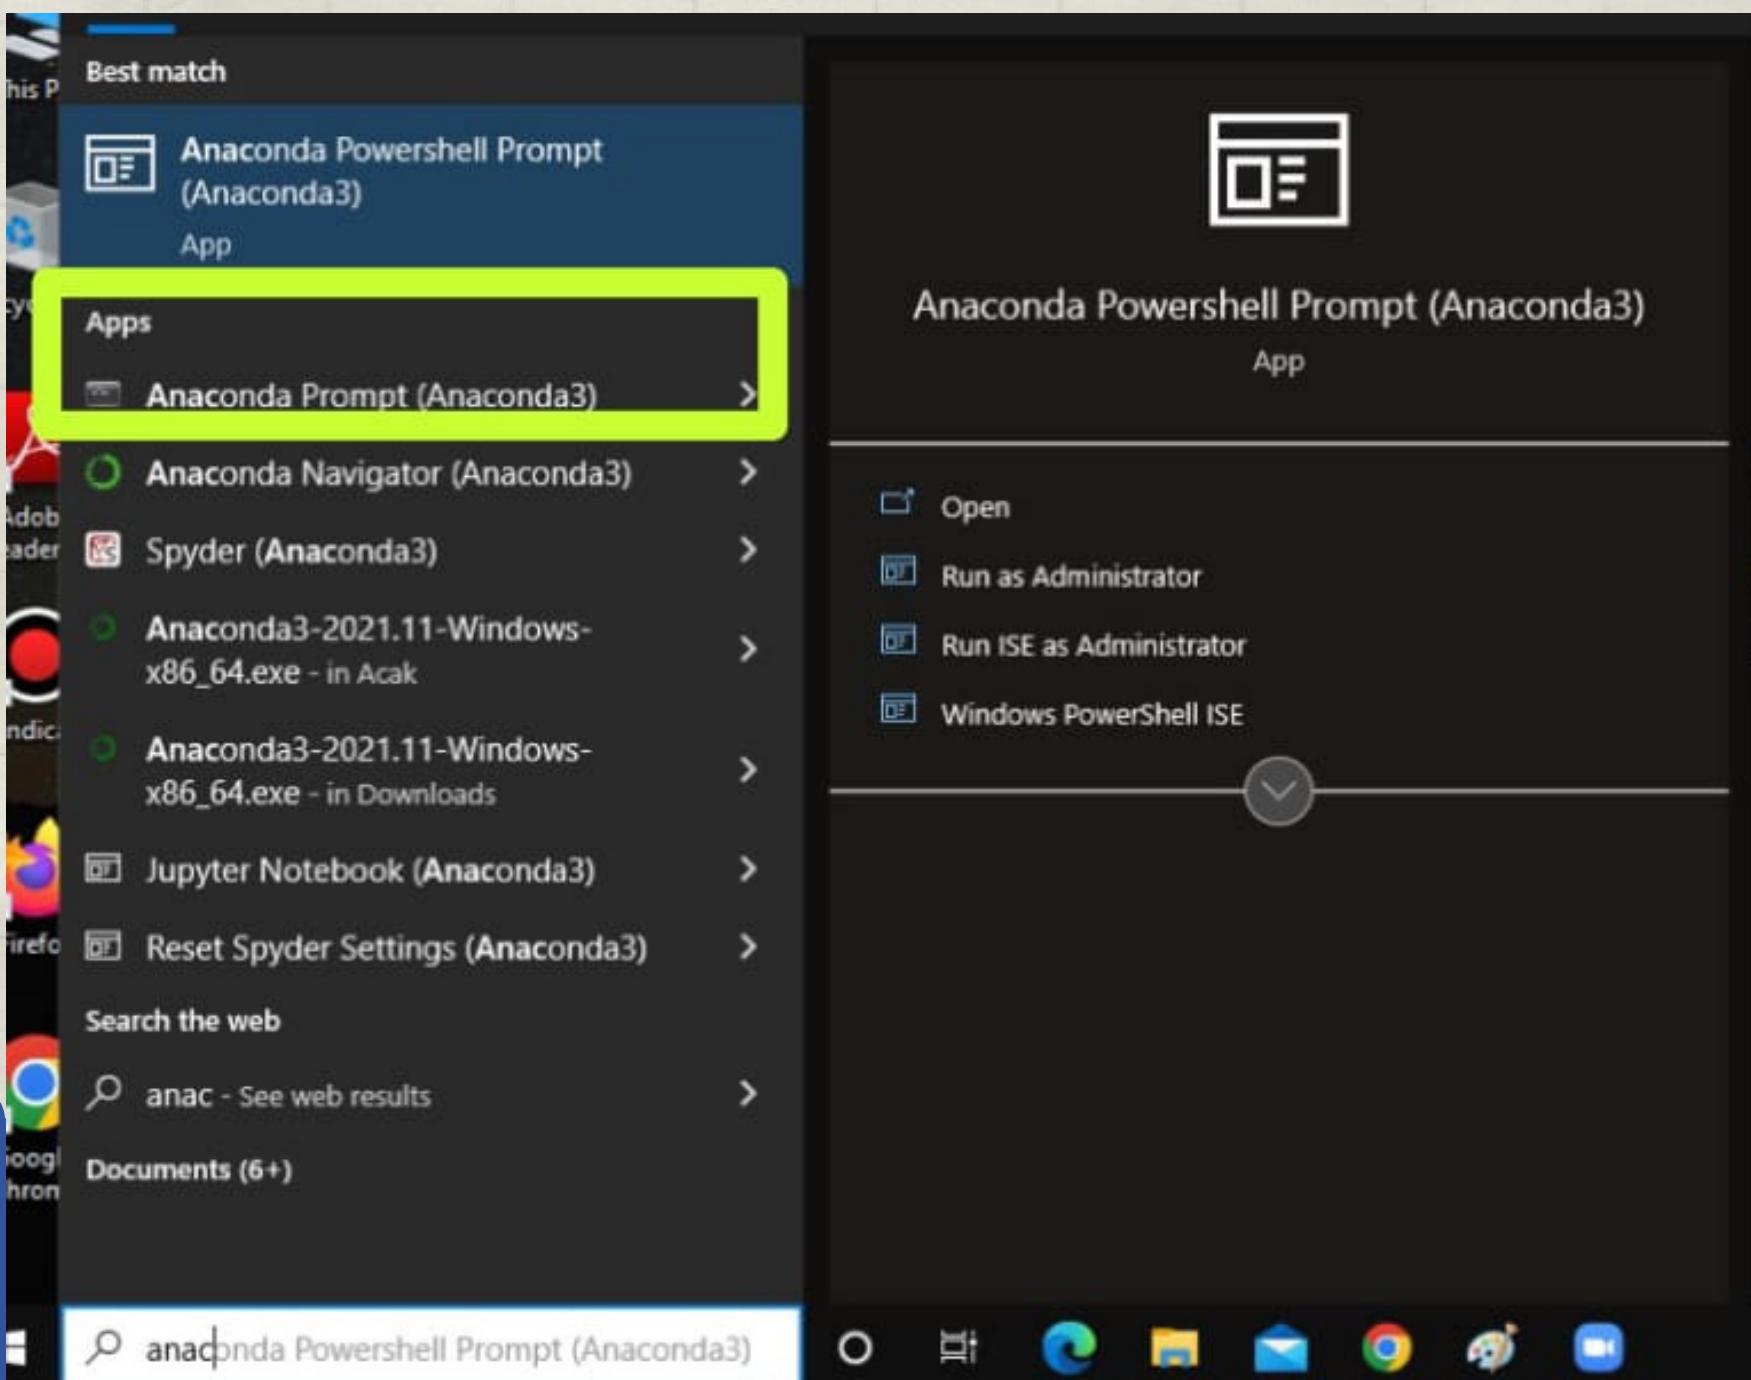

Setelah berhasil menginstall ,Click "next" sampai "Finish"

STEP 7

selanjutnya untuk mengecek versi anaconda dan python yang sudah terinstall yaitu dengan cara click type here to search/windows lalu cari Anaconda Prompt seperti gambar dibawah ini.

STEP 8

selanjutnya buka "Anaconda Navigator" di windows/type here to search,
Jika tampilannya seperti gambar dibawah ini maka sudah selesai
